Before School Club and After School Club

Dear Parents/Carers

The Before School Club and After School Club are valued provisions that the school offers, and we appreciate that they are vital to many working parents. They provide exceptional value for money, and are very reasonable when compared with other local providers. We provide a safe, fun supportive environment within the club. Students can explore new and challenging experiences, learn from positive role models and have the opportunity to build skills for life.

To ensure we can continue to make the clubs viable, and continue to grow, we will be increasing prices from September 2020. This will ensure that the clubs continue to run effectively. This will be reviewed again in 2 years.

BSC will be increased to £4.50 per pupil, per session and ASC will be increased to £9.50 per pupil, per session. Families with 2 or more children will be offered a discounted rate. A 20% discount for a second child and a 50% discount for 3+ children.

We do appreciate that any increase in costs impacts on families, however the clubs haven't had a price increase since 2018. The increase will ensure that we can provide more fun filled activities and equipment for the students.

We will be introducing Forest School into the ASC from September so will need equipment to develop the outdoor provision. As usual we will be using Pupil Voice during the BSC & ASC sessions so that we can get the children's ideas for future daily activities such as STEM (Science, engineers, robotics) Arts, Sports, Music & Dance and Media & Drama.

We have compared these costs to other local providers, and they are still competitive, and represent very good value for money. If you have any questions, please see myself or Miss Hewitt.

Fees are to be paid in advance before the care starts. Care will not be provided if payment is not received.

Yours sincerely

Ms A Nelson
Head teacher
